Investment plans for the production of energy from renewable energy sources (RES) are supported only for:

- Investment expenses for high efficiency energy cogeneration from RES
- Expenses for production of energy from RES
- Expenses for the installation of efficient district heating and cooling systems
Type of Aid

1. **Tax exemption**: exemption from payment of income tax that results from the current tax legislation, on the profits realized before taxes from all the activities of the company.

2. **Subsidy**: free provision from the State of funds to cover part of the eligible expenses of the investment plan, determined as a percentage of the total investment cost.

3. **Leasing Subsidy**: the State covers part of the installments paid for the leasing agreement concluded for the purchase of new machinery and other equipment, with a total duration that cannot exceed 7 years.

4. **Wage subsidy (for jobs created)**: covers the cost of the new jobs created and are associated with the investment plan.

5. **Financing instruments** (capital participation, loan)

6. **Fixed corporate income tax rate**

7. **Fast licensing procedures**

---

**Aid Intensities And Amounts** *(Article 11)*

The investment expenses are supported:

a) For expenses of regional aid, the maximum aid intensities (approved maximum regional aid limits) are determined by the Regional Aid Map (RAM), depending on the region and the size of the company.

   * A revised RAM will enter into force from 01/01/2017 with aid intensities 10%-55%

b) For non-regional aid expenses, up to the amount determined for each expense

---

Participating companies eligible to receive state aid and leasing subsidies must show profits in at least one fiscal year during the previous seven (7) fiscal years, before the fiscal year of their application for participation in the Law.

The maximum amount of aid for each investment plan amounts to €5,000,000, for each company to €10,000,000 and for each company group to €20,000,000.
Special Categories of Aid (Article 12)
