Greece now offers gainful advantages for the establishment of **Service Centers, i.e. Business Service Centres, Shared Service Centres (SSC's) and Business Process Outsourcing Centres (BPO's)**. The country's geostrategic location, availability of high-level human capital from a variety of scientific and other disciplines, compensated with competitive wage rates, its low cost real estate property market, as well as the excellent climate and living environment, and the fact that it is an EU member country enjoying stability, security and prosperity, in a wider area where social turbulence is felt.

Greece offers a friendly and contemporary institutional framework for the establishment of **intra-group service centers**, as defined by Law 3427/2005 (Chapter F), providing the following advantages:

- flexibility with regards to the type of the business entity, which can be established either as an office or branch of a foreign company or as a domestic company
- Simple, fast and transparent licensing process, through a ONE-STOP-SHOP service
- Legal certainty with pre-defined profit margin on costs, set separately for each company in accordance with the OECD instructions for intra-group transaction charges and updated every five years.
- residence and work permits for its foreign staff

The competent service for the implementation of the Law is the **Directorate for Foreign Capital at the Ministry of Economy, Development and Tourism**, which works as **ONE STOP SHOP** for receiving applications, issuing the deployment decision and defining the respective profit margin, through its integrated Information System

Intra-group service centers under the regime of Law 3427/2006 (Chapter F) may provide the following services to their head-offices or affiliates abroad as well as in Greece:

- Consulting services
- Centralised accounting services
- Quality control of production, products, procedures and services
- Preparation of studies, designs and contracts
- Advertising and marketing services
- Data processing services
- Receipt and supply of Information and Research & Development services.

The above entities are obliged to maintain a minimum size regarding the employment and operating expenses, at least 4 employees and 100,000 Euro per year operating expenses in Greece.

Currently approximately 135 offices and companies of Law 3427/2005 (Chapter F) operate in Greece, some of them are subsidiaries of large multinational groups, employing approx. 2,600 staff.
